

FW4 915x445 CUBIS with 4 Rings, 1 Furniture Kit, PLA Approved

Product Image

Product Description

Concrete Infill covers are manufactured to suit an extensive range of clear openings, an industry favourite for their simplicity and ease of use.

The product is designed for use in both footway and roadway installations where it provides access to underground ducting (EN124 Class A15-B125)

The rings are a range of modular access chambers, made from 150mm deep riser sections which stack and interlock to offer flexibility in finished chamber depths.

It has been tested to withstand vertical loads of EN124 D400.

Concrete Frame Details

Clear Opening: 916mm x 446mm

External Dimensions: 1008mm x 538mm
