

Stainless steel band 20x0.7mm **(length 50m)**

Product Image

Product Description

Our Stainless Steel Banding is designed for high performance and reliability in attaching hardware to poles or other supports.

Crafted from high-quality AISI 430 stainless steel, this banding offers superior durability and strength, making it ideal for various applications.

Each 50m spool of banding is housed in an eco-friendly, ergonomic reel case dispenser. Made from recycled plastics, these dispensers are free of colourants and feature a natural colour, allowing for quick visual checks of the remaining quantity. The deburred edges of the pole band ensure safe handling and installation.

Material: High-quality AISI 430 stainless steel

Dimensions: 20mm x 0.7mm

Spool Length: 50m per reel case dispenser
