

Strip Duct 54D Grey 094979

Product Images

Product Description

An H section PVC extruded strip to join together the two edges of a Bend Duct 54 when cut longitudinally for placing around cables, for in situ renewals.

A Split Duct Bend can be produced by cutting a standard Bend Duct along its length.

The split bend can then be placed around the cables, and the edges held together with two lengths of Strip Duct 54D.

Length: 1 metre

Supplied in a pack of 20.
