

# **Round PVC Conduit Black 20mm 3m**

## **Product Images**

## **Product Description**

Round rigid super high impact heavy gauge black 20mm PVC conduit.

Can be used to ensure and test that a pole has been installed to the required minimum depth appropriate for the specific pole.

The conduit is installed parallel to the pole and should be secured using 63mm galvanized staples.

The conduit should also be capped using 20mm pole depth tube cap.
